

Comparison Operators

- Comparison operators are used to compare two number/strings, the result of comparison operators is boolean (true/false)
- For number:
 - ==
 - !=
 - <
 - >
 - <=
 - >=
- For Strings:
 - ==
 - !=
- Syntax:
 - {{ a == b }} / {{ a != b }} / {{ a < b }}
 - {{ 29 > 6 }} / {{ 'hi' == 'hi' }}
