Ansible Dynamic Inventory for AWS Cloud with plugin

➢ **Step1: Install aws collection**
➢ **Step2: Get Access Keys for AWS Account**
➢ **Step3: create inventory file , Example: aws_ec2.yml or myproject. aws_ec2.yml**
➢ **Step4: Write the logic in inventory file by following the documentation of aws_ec2_inventory plugin**

➢ **Note: Generally, we launch new servers from our custom AMI, so where we already have our ansadmin**

Ansible and Ansible-Playbooks For Automation
