Stat Module

➢ **Stat module is useful :**
  ➢ **To get stats of the file or file systems**
  ➢ **Its more useful in playbooks to develop a logic for file operations such as is file exist, who is the user of file …**

➢ **Ansible Ad-hoc Command:**
  ➢ **ansible <host-pattern> -m ansible.builtin.stat -a 'path=/tmp/demo'**

Ansible and Ansible-Playbooks For Automation
